# HOT WEATHER TALK

## NATHAN JONES.

If we are willing to do we can do almost anything in keeping cool. In tropical climates in summer houses, climes, and, for instance, are largely discarded. Here, however, in our near comes all the year round, and to keep cool in a tight corner is a well known impossibility.

To overcome this, a net curtain is made and drawn down, then as just thing for hot days. We show a line of net curtains, short lengths, regular price of which is 75c. You will see them at 50c, and we also have a light weight curtain at 50c. Try a pair and you will be pleased. We have two the Clinton Curtain at 75c and \$1.00.

A mosquito net is needed these warm days. We have a pretty lot of them in white and colors at 25c.

For children, we are clearing a line of net hung at the feet. These were from 12 to 25c. You should buy three or four pairs at once.

A Great Gathering.

Holland Landing, July 12.—The  
Conservative of North York has  
been celebrating a triumph, they  
could not have done it more loudly  
or more effectively than they did at  
the political demonstration held here  
yesterday. The affair was gotten up  
primarily for the purpose of showing  
Mr. T. H. Lennox, who is now  
fighting him in the North York  
election, that he is not a crooked  
man. The affair was also a  
great gathering of the people of  
the district.

# COOL, COMFORTABLE Outing Suits FOR MEN

Our Summer Suits, as some have named them—cool suits because they are built of tropical weight fabrics—Canadian Homespun, English Flannels, Wool Crashes and Serges—comfortable because they fit. Summer's the time, you know, when a man feels the full discomfort of ill-fitting clothes—especially coats that drag all their weight from perhaps one or two little wrinkles of the shoulders.

That's where the making counts and our makers look out for these little things and cut and shape the shoulders of our coats so as to make shape as lasting as in our heavy winter garments. All the newest creations in fabrics and styles are in our complete variety of these suits.

SPOOL SILK

Too Strong to Break

FOR dressmaking and family sewing Corticeil Silk is the best silk made. For hand or machine use it has no equal. Corticeil Silk runs smoothly in the needle; it is always even in size and gives full length and full strength.

Ask your dealer for "Corticeil" and politely but firmly refuse all substitutes which some clerk may say are "just as good." You may be sure they'll lack the many excellent qualities of the genuine Corticeil Silk.

If your dealer does not keep Corticeil Silk it is probably because he makes a little more money selling you some other brand. As Corticeil costs YOU no more than your silk, why don't you try it! Ask for "CORTICEIL"—the Dressmaker's Favorite, Spool Silk.

## THE HANGING OF RICE.

Whoever Did Not Think—Now—Hippert and Smith Were in Attendance—Belatedly Got It.

Toronto, July 19.—The murder of Constable William Rice by two men, charged with armed robbery, was held for adjournment until Monday morning in the case of the hanging of Rice. The flag of gold unfurled above the gallows, and the hundreds of persons assembled out of curiosity to see the fall of the gallows, the last scene in the tragedy that began with the formation of the notorious "hanging gang" in the Colorado Territory five years ago, was not finished.

One died and two live. He walked to the scaffold with a steady gait, and with a calm and a rigid bearing. His face was pale, but only just so. He cut a glimmer at the group of witnesses in the gallery, and then turned to the state reporter. The crowd was so packed that the reporter could not get near the prisoner. The crowd was so packed that the reporter could not get near the prisoner. The crowd was so packed that the reporter could not get near the prisoner.

The doctor said that the man who had slipped around the back of the cell, and who had been seen to strangle him, the neck had not been broken, although the man weighed 175 pounds, 15 pounds more than when he entered the jail last year. There seemed to be a tendency on the part of some present to believe that the hanging was incomplete.

In accordance with the decision of the Government on Thursday, the body was surrendered to his relatives.

A VERY STRANGE  
COINCIDENCE, THIS  
Man Who Found Body of Edgar  
Green in Death.

What Strange Mystery Hangs  
Over the Premises of Evans  
& Sons, Toronto?

(Toronto World)  
That the premises of Evans & Sons, limited, wholesale druggists, at 23 West Front street, should be the scene of a drug burglary, a mysterious disappearance of a man, and a comparatively brief space of two months, is something that is puzzling the local authorities. The burglary was committed on the night of May 30, but the disappearance of the man, while in the act of removing the bricks from around the safe, the lock having been tampered with.  
On Saturday, June 7, just previous to the time when Edgar A. Green, a clerk, was found lying dead in the basement. Counsel Dwyer deemed an inquest unnecessary, and the body was removed to Bellevue for disinterment. The death of young Green was followed on Sunday afternoon, June 14, by a fire, which broke out in the basement, and was discovered by Theodore Lewis, St. Andrew's, who was saving himself by jumping out of the fire, which occasioned considerable damage to the building and contents.  
The second sudden death occurred some time between 2 o'clock on Saturday afternoon and 3 p.m. yesterday. It was George Whalley.

The dead man is George Whalley, who had been working for the firm for about four years. Whalley left his summer home on Victoria park, at Spring Beach, on Saturday morning, in the boat of his wife and spirits, he explained on leaving his home, to the fact that he was going to take a short trip to the lake, and he was again left in the evening. When he did not return the proprietors of his family became alarmed.  
Early Tuesday morning his two sons, George and Henry, went out to look for their father. They found that he had not been there. They returned to the house and asked the officers to assist in the search.

New Him Through the Window.  
From the station the young man was taken to the police station, and was placed in the hands of the police. The body of the father lying in the street, and the body of the son lying in the street, were found by the police. Australians Won the Kolapore Cup—Canada Was Third—King's Condition Still Improves—How Britain Will Defeat the World.

New York, July 22.—A special to The Evening Post from Washington, says: "Within ten years Western Canada will be producing annually 250,000,000 bushels of wheat."

This is the prediction of Theodore M. Knapp, of Minneapolis, made in an address before the State Bankers' Association, and other orators, which has been lately quoted in these columns.

It is estimated that the wheat crop in the United States alone depends in large part upon the foreign market for our grain, and the price is regulated in the market of Liverpool, and as that figure goes up, prosperity smiles on the heads of the people.

The low price of a decade ago, 1900, was the cause of the Farmers' Alliance and People's party movement, threatening in their capture of the Executive north in 1900, and the present situation is not so bright.

# Lightning Bolt as Fatal

## Toronto Woman Killed and Her Husband Seriously Injured.

**Hamilton Traveller Lost His Life by the Upsetting of a Yacht—  
Two Lads Drowned in the Welland River—Threw Up  
His Hands and Sank.**

Toronto, July 28.—High Park, where thousands of picnickers were making merry on Saturday afternoon, was the scene of a distressing fatality. Mrs. Creilly, wife of John Creilly, a foreman at the park, was killed by lightning, her husband and a young lad were injured, and considerable damage was done to the house. The electric storm accompanied the rain and drove all the merry makers to shelter. Mr. and Mrs. Creilly, their family and a few others had been out in the park, and when the rain came down they hurried into the house, which is situated at the head of Dundas avenue, just across the ravine. The house is a one-story frame structure. About 6 o'clock the lightning struck the chimney, shattering it and wrecking the roof. The current passed down the chimney, near the bottom of which Mrs. Creilly and a friend, Mrs. Forrester, were seated on a sofa. In front of the window, Mr. Creilly and a young lad were standing near the doorway. The lightning struck the opposite wall, tearing the wallpaper and wrecking the woodwork. # COOL, COMFORTABLE Cutting Suits FOR MEN

Or Summer Suits, as some have named them—cool suits because they are built of tropical weight fabrics—Canadian Homespins, English Flannels, Wool Crashes and Serges—comfortable because they fit. Summer's the time, you know, when a man feels the full discomfort of ill-fitting clothes—especially coats that drag all their weight from perhaps one or two little wrinkles of the shoulders.

That's where the making counts and our makers look out for the little things and cut and shape the shoulders of our coats so as to make shape, as lasting as in our heavy weight garments. All the newest creations in fabrics and styles are in our complete variety of these suits.
